SUMMARY

Product Designer with experience in fintech and developer education, specialising in translating complex technical systems into intuitive, user-centred digital products. Experienced in end-to-end design for mobile payment applications, merchant dashboards, and interactive learning platforms. Skilled in user experience evaluation, identifying design issues, simplifying complex information, and collaborating with cross-functional teams. Strong attention to detail, analytical thinking, and problem-solving skills, with an interest in technology and AI-driven products.

PROFESSIONAL EXPERIENCE

Dreamax (Launchpad), *Product Design Team Lead* 09/2026 – 11/2026
Remote

- Selected as a team lead for the Verify mobile application project, coordinating team activities and monitoring progress towards project milestones.
- Led the mobile application team in designing a product verification solution to help consumers and retailers identify potentially counterfeit products.
- Coordinated team discussions and followed up on assigned tasks to support project progress.
- Reviewed user flows and interface designs, identifying areas for improvement.
- Collaborated with research and other project teams to align the mobile application with project objectives.

Mavapay , *Product Designer (UI/UX)* 02/2025 – 03/2026
Lagos, Nigeria

- Designed core mobile application experiences, creating intuitive payment flows for everyday users.
- Designed B2B merchant and administration dashboards, simplifying financial management and transaction monitoring.
- Reviewed user flows and interface designs to identify usability issues and improve the overall user experience.
- Collaborated with cross-functional teams to communicate design decisions, incorporate feedback, and improve product experiences.
- Worked with brand designers to develop an official brand design guide, establishing consistent visual standards.
- Designed a price converter tool, making currency conversion information easier for users to understand.

Chaincode labs (Contract), *Product Designer (UI/UX)* 08/2024 – 12/2024
Remote, United States

- Designed an educational dashboard that helped developers track learning progress and navigate coding challenges.
- Structured course and lesson layouts to make technical learning materials easier to understand and navigate.
- Reviewed user flows and interface layouts to improve clarity and the overall learning experience.
- Contributed to a product focused on Bitcoin and Lightning Network development, improving how learners interacted with technical educational content.

EDUCATION

UI/UX Product Design, *Dev & Design* 2025
Lagos, Nigeria

UI/UX Product Design, *AltSchool Africa Diploma* 2024
Lagos, Nigeria

HND, Science Laboratory Technology (Microbiology Option), *Yaba College of Technology* 2019 – 2021
Lagos, Nigeria

OND, Science Laboratory Technology, *Yaba College of Technology* 2014 – 2018
Lagos, Nigeria

SKILLS

Product & UX Design: User Interface Design • User Experience Design • Wireframing • Prototyping • User Journey Mapping • Design Systems • Component Libraries • Style Guides and Brand Guidelines |
Analytical & Problem-Solving: Attention to Detail • Critical Thinking • Analytical Thinking • Problem Identification • Information Analysis • Constructive Feedback • User Experience Evaluation | **Communication & Collaboration:** Written Communication • Verbal Communication • Team Collaboration • Cross-functional Collaboration

TOOLS

- Figma
- FigJam
- OpenAI Codex (Basic Familiarity)

ADDITIONAL

Location: Lagos, Nigeria | **Language:** English | **English variety:** Nigerian English | **Communication & Collaboration:** Written Communication • Verbal Communication • Team Collaboration • Cross-functional Collaboration
